🌐 LinkedIn | 🐙 GitHub

Summary

Software Engineer experienced in developing scalable web applications using modern JavaScript frameworks, with a focus on performance optimization, system design, and delivering intuitive, user-centric interfaces.

Technical Skills

Languages: C++, JavaScript

Frontend: React.js, Tailwind CSS, Framer-Motion, GSAP

Backend/DB: Node.js, Express.js, MongoDB, PostgreSQL, Redis

Tools: Git, Docker, Postman, VS Code, Vite, Zustand

Concepts: State Management, Responsive Design, Performance Optimization

Problem Solving: Solved 150+ DSA problems

Projects

CDC Placement Portal | 🌐 Live

Dec 2025 – Present

- Built a scalable placement portal with role-based authentication and secure JWT-based access control.
- Designed and implemented dynamic dashboards supporting real-time data filtering and efficient state updates.
- Optimized frontend performance using lazy loading and memoization techniques to reduce load time.
- Improved system efficiency by structuring reusable components and minimizing unnecessary re-renders.

Omninet Core | 🐙 GitHub

Jun 2025 – Aug 2026

- Developed a real-time collaborative workspace with modular and scalable frontend architecture.
- Designed reusable UI components to ensure consistency and maintainability across the application.
- Integrated APIs for messaging, AI assistant, and file handling with efficient state management.

Team Zemo Portfolio | 🌐 Live

Dec 2025 – Jan 2026

- Developed a performant and responsive organization portfolio using React and modern frontend practices.
- Optimized rendering and interactions to ensure smooth performance across devices.
- Implemented modular and reusable components for maintainable UI architecture.

Education

Acropolis Institute of Technology and Research
B.Tech. in Computer Science & Engineering (CGPA: 7.7)

Indore, MP
2023 – 2027

Garima Vidya Vihar Sr. Sec. School
Class XII (76.8%) & Class X (82.2%) – CBSE

Indore, MP
2021 – 2023

Leadership & Experience

Spectra Club (AITR)

Design Lead

Indore, MP

Present

- Led the design team to deliver high-quality visual assets for departmental events.
- Collaborated with cross-functional teams to maintain consistency across platforms.
- Improved audience engagement through structured and user-focused design execution.

Certifications

- **NPTEL (IIT Madras):** Design and Analysis of Algorithms
- **Accenture (FutureLearn):** User Experience & Digital Skills
- **Acropolis Institute (CDC):** Certificate of Appreciation for developing the Placement Portal by Group Director
